More tips;

If you entered a team last year, your group will already have a Valid 2010 User Account. We will be sending out an email shortly confirming your LogonID and Password. If you don't get this email but think you should have, please contact our office so we can try and locate the information for you. **With an existing User Account you will be able to simply import your entrants details from the 2010 data, making any alterations/additions as necessary.**

My Account

Access your 2010 User Account via this option on our home page

Give your team members a chance to win a new Toyota Yaris by making sure your team is entered and paid for before the 31st of August

Do you want any posters to put up at your workplace?

Let me know and I can send you some

To refresh your memory on the best way to enter your team members;

If the Company is paying for the entries and you have someone in the office who will take on the role of "Team Coordinator", it is easier if members just register their interest with you (if it helps use the online summary sheet, found under TEAM COORDINATOR INFO) **A hard-copy entry form is not required.**

If participants will be paying for their own entries, have them create their own User Account, keying a common Team/Group Name to attach you all to the same team. They will be able to enter their family members too. **Only entries keyed as a family entry will receive the discounted family rate.**

This year we have introduced a new facility, which allows a team members list to be viewed from our home page. This will allow you (as the Team Coordinator) to see who has or hasn't entered the event, without you being responsible for keying their entries personally. (This new option is available under, EVENT INFO, Team/Company Competitor Lists)
